

The Power of Healing Miracles

I have been told that when I speak in tongue that I am speaking in Aramaic the language of Jesus spoke, I don't know is that when I lay hands speak in tongue I feel the presence of Jesus within me that comes though.

A woman who has suffered a migraine headache every day and pain continued day and night and even the medication that the doctor gave her wasn't taking care of getting rid of that of migraine headache that it was effecting her life. I anointed her forehead and laid hand on her and as I prayed over her she felt the Holy Spirit come upon her and no more pain, she was healed of years being in pain and now she is free.

I have had people tell me when I have touch their head or even their palms that they feel their body get hot from when I had laid hands on them. I tell them that the Holy Spirit is on fire and is cleansing them and brings out the sin and make them whole in his name.

I did a consecration of a bishop at Good Hope Church and he said when I anointed him with oil and made the sign of the cross on his forehead and rubbed it in both palms of his hand, he said he felt that his hand and forearms and his forehead felt on fire and he knew I didn't heat up the anointing oil. The power of Jesus is truly at work

I had a very ill woman came up to the altar for healing, I prayed over her and anoint her with anointing oil. Later she said she felt like a bucket of water was dumped over her and she wasn't wet. I told her that the Holy Spirit was cleansing her from head to toe and he made her whole again with no sickness, which left her body.

I even had a woman that had cancer cam up to the altar with the help of two deacons, I prayed over her and had other deacons was also praying over her and I once again anointed her with oil. The next day she called me and ask me a question she wanted to know because she was trying to tell one of her neighbors what she was feeling at the service last night. She said she felt that her whole body was on fire but wasn't running a temperature. I told her the the Lord was cleansing her and getting out the cancer in her body and she was filled with cancer that was taking over her body and the doctor only gave her 2-4 months to live. Well the following day she called me and said that there were no more cancer shown in her body and the doctor could not understand it but there were no more signs of it. She told the doctor, I know my Preacher healed me and Jesus freed me. She said, Preacher you healed me and I told her that I am only a vessel a servant of the Lord and I do not take any credit for it was Jesus that came through me that healed you. Praise the Lord for that Power of Jesus I have truly seen miracle work.

I once anointed 150 people in a church service from the elderly to babies with a small vial of Holy Anointing Oil that was only a ¼ oz. Bottle this bottle never got low, it seemed to always filled back up with the oil. That is a miracle in itself that never ran empty. I anointed their foreheads with the sign of the cross and it blessed everyone that came up to the altar.

I take no credit for it, only through Jesus Christ and when it happens it will happen and if it is his will to heal it will happen.

I have personally witness the Power of Jesus and when it spoken in Jesus name that Healing Power will shine through if it is God's will.
